

To Parent/Carers,

Last week at Pre-School we looked at the topic 'Space'

Again, below are some of the activities we have done at school so you can do these with your child.

Please continue using EvidenceMe! All you have to do is reply to this email with photos/videos and comments. Thank You and Keep Safe Pre-School

 <p><u>Play</u></p>	<p><u>Early Years Foundation Stage Curriculum</u></p> 
<p>Create an alien! – You can either draw an alien, use play dough or use junk modelling to create one! What is special about your alien? Does it have any powers? How many eyes does it have? How many legs/arms?</p>	<p>Personal, Social and Emotional Communication and Language Expressive Arts and Designs Understanding the world</p>
<p>Blast off!!! – The children absolutely loved creating a rocket together and having a blast off in the garden! We created a rocket using things you can find around your home. Bottle, cork, baking soda and vinegar. Please see link below on how to make your own rocket! If you film this and respond to this email we can compare! https://www.youtube.com/watch?v=jjU1lAgRcQg</p>	<p>Personal, Social and Emotional Communication and Language Expressive Arts and Designs Understanding the world Physical Development Expressive Arts And Designs</p>
<p>Imagination – once you have created your rocket and alien, encourage your child to talk about where the rocket might go. Would it go to the moon? Another planet? If we went to the moon what would we need/wear/take? What might we see? What do the aliens do on other planets? What planet do we live on? A great story to read/watch is Whatever Next all about a bear who created his own rocket and went to space!</p>	<p>Personal, Social and Emotional Communication and Language Understanding The World Physical Development Literacy Expressive Arts And Designs</p>
<p>Aliens love underpants – you can listen to this story using YouTube. During this story ask your child lots of questions including why and how questions. For example how did the aliens get to Earth? Can your child create a picture of their own pants? What patterns might you have? Spotty, stripy etc</p>	<p>Personal, Social and Emotional Communication and Language Expressive Arts and Designs Understand The World Mathematical Development</p>
<p>Phonics – Write down the letters S, A,T, P. Encourage your child to look at this and trace over them. Talk about each one and what their sound is. What begins with a Sssss? Do this with all the letters. Repetition is the key with phonics so you can do this daily, and adding new letters such as I,N,M,O,H</p>	<p>Personal, Social and Emotional Communication and Language Understanding The World Expressive Arts and Designs</p>
