## MESSAGE FROM THE HEADTEACHER

Dear Parents/Carers,

I hope you had a lovely Easter break and were able to have a rest! It is lovely to see all children back in school.

This week, I sent out an attendance summary and an attendance letter via MCAS, outlining children's attendance so far this year. We recognise that improving attendance significantly impacts children's learning outcomes and overall school performance. We believe that every day in school is a valuable opportunity for our children to learn, grow, and thrive. Improving attendance is not just a statistic; it is a vital component of our children's academic success and personal development. Research shows that regular attendance is closely linked to better academic performance, enhanced social skills, and overall well-being. It helps children to build relationships, engage with their learning, and achieve their academic goals.

Therefore, we encourage open communication about attendance challenges and successes. Practical tips for encouraging good attendance habits at home can make a significant difference. Simple strategies, such as establishing a consistent morning routine, discussing the importance of school with your child, or ensuring that your child is prepared for school the night before, and addressing any barriers that may prevent attendance. All of these can foster a positive attitude towards attendance. Together, we can inspire children to embrace every learning opportunity and achieve their full potential.

We appreciate your support in reinforcing the importance of attendance at home. Together, we can ensure that every child has the opportunity to thrive and succeed. Well done to all of those children who have 97% attendance and above – this is excellent! A special well done goes to those children who have 100% attendance – keep it up!

Many thanks, Jon Stevens.
